POLICY DOCUMENT ON ENVIRONMENT AND ENERGY USAGE

The energy and water conservation policy of our institution is to manage energy and water in a sustainable and holistic manner. The policy will help us to embed efficiency and environmental awareness into our everyday activities thus helping to realize our responsibilities and commitment to conserve our natural resources. The institution also conducts green literacy programs, awareness program to raise environmental consciousness.

Policies:

- To install LED bulbs and LED tube lights in the campus to save energy.
- During day time, there is no need to switch on the bulbs and tube lights as the rooms in the institution are designed in such a way that they receive ample sunlight.
- To install solar panels in the campus for the generation of alternate energy.
- · To install inverter in the campus for the generation of alternate energy.
- To develop proper waste management of degradable, non-degradable and E-waste.
- To develop rain water harvesting facility in the college.
- To install water conservation tank to conserve water.
- To use more pedestrian-friendly pathways in order to reduce air pollution.
- To undertake tree plantation drive from time to time under "Hariyali Mission" and National Service Scheme.
- To develop botanical garden in the college.
- To offer opportunities for employees and students to engage in initiatives which contribute to environmental protection.
- To provide information and training opportunities on energy saving measures.
- To conduct environmental promotion activities beyond the campus.
- To establish plastic-free environment in the campus by putting ban on the use of plastic bottles, polythene, plastic tiffin etc.
